

VISION

- To make India a global pioneer in IPR policy making
- To evolve into a research hub and resource centre of international repute
- To act as a think tank in the area of IPR and development catering to the needs of the international community

MISSION

- Policy research support to Central and State Governments
- Multidisciplinary teaching and research in IPR related areas
- Interaction among researchers from universities and research institutions world over
- International collaboration and exchange of faculty and students
- *IPR Facilitation* to local and University inventors and creators
- Training for IPR implementing officers and general public
- Online IPR teaching and publication
- Support developing and least developed countries in structuring IPR policy and laws promoting development

DREAM

- A centre of excellence swarmed with researchers eager to enjoy participatory learning and unlearning in the area of IPR
